

CONTROL PANEL

Auto Shutoff: First, ensure that the fan is turned on. Press the auto shutoff button once - "00" will show in the display. Press the button again and "3:00" will be displayed. This indicates that the hood will automatically shutoff in 3 minutes. To increase the number of minutes before shut off, hold down the Auto Shutoff button.

Lights: 2 levels, high and low. Tap button to turn on. Tap again to go between high and low light levels.

Speeds: Press the fan button to turn on the fan at the lowest speed. Press the button again to increase the speed. There are 4 speeds available. The lowest speed is the most quiet. The highest speed is the most powerful.

Power: Press the power button to turn on or off.
