PURCHASE INFO

**A) LIGHTS:**

To turn on lights, flip the switch on the left. Press up (l) to power on, and down (o) to power off.

B) FAN:

To turn on the fan, flip the switch on the left. Press up (l) to power on, and down (o) to power off.

To adjust the intensity of the fan, use the knob on the right. Turn the knob counterclockwise for the lowest fan speed and quietest output. Turn the knob clockwise for the highest, most powerful speed.

C) HEAT LAMP:

Press up (l) to power on, and down (o) to power off.
